

MAGNETIC METALLIC LAMINATES

FORMICA® MAGNETIC METALLIC LAMINATES are versatile, high-pressure laminates with an embedded metal foil layer that creates a large-scale magnetic surface. They are easy to write on (using whiteboard markers or chalk), easy to clean, and come in two surface finishes: Glossy White – for whiteboards, meeting room walls, classrooms and writeable magnetic wall surfaces; and Matt Black – for blackboards in teaching environments, children’s bedroom walls, kitchen door panels, and other creative uses.

Glossy White

Matt Black

Formica Commodity Metallic Laminates are marketed and distributed by Laminex Group Pty Ltd ABN 98 004 093 092, trading as Laminex. The colours and finishes of the products featured within the imagery in this brochure are as close to Formica Commodity Metallic Laminates as photographic lighting and our printing processes allow. Different camera angles, although not designed to be misleading, can sometimes distort actual size and distances. Formica Commodity Metallic Laminates are no different than any other material in that darker colours will always show scratches and superficial wear and tear more readily than lighter colours. Formica Commodity Metallic Laminates should be protected from strong, direct sunlight as continuous exposure may cause discolouration or fading to the surface. Please obtain a copy of the terms and conditions of the Formica Commodity Metallic Laminates 7 year limited warranty from formica.com.au. This warranty is in addition to any rights that may exist under the Australian Consumer Law. **Formica®**
