

Your selected kitchen

Galley: Light tone

With its narrow layout and overhead and parallel counters, the Galley kitchen makes the most of a small place, putting every inch to good use.

Use this guide as a starting point to bring your kitchen to life.

Design tips

A galley layout can be made to feel more spacious by matching light natural tones, like marble, with neutral shades. Add warmth to this colour scheme with overhead cabinetry in a light toned woodgrain like Sandy Birch and Doe Skin coloured cabinetry interiors. Complete the look with a timber floor that complements the Sandy Birch cabinets and adjacent areas in your home.
