All swatches here are shown at 100% scale. All colours are available in 20mm thickness. Select colours are available in 30mm thickness in WA only.
For a free sample visit essastone.com.au

The high content of natural quartz makes Essastone® a resilient material.
Essastone is scratch¹ and stain resistant¹, however no surface, including Essastone, is indestructible.
Textured surfaces may demonstrate undulations, wrinkles and variations within the height of the surface.
Following the care and maintenance guidelines will help you keep your Essastone surfaces looking great.
¹All non-gloss, black and textured surfaces require additional care and cleaning to maintain stain and scratch resistance.

Images on this Colour Card are as accurate as CGI, photographic and printing processes allow.
